Git,Github

PROFESSIONAL EXPERIENCE

Supereasy Solutions

Dec 2023 - Jan 2024

React Developer Intern

- Designed and developed front end components leveraging React for front-end implementation, and seamlessly integrating it with a backend database, enhancing data visualization and accessibility for end-users.
- Implemented responsive design principles, ensuring optimal user experience across various devices and screen sizes

PROJECTS(AVAILABLE ON GITHUB)

CHAT APPLICATION

- Integrated Firebase as the backend infrastructure, enabling real-time data synchronization and secure user authentication, while employing SASS for streamlined and maintainable styling, resulting in a visually appealing and efficient chat platform.
- Developed a dynamic and responsive chat application using React, crafting an intuitive user interface that enhances the user experience.

PORTFOLIO WEBSITE

- Designed and developed a dynamic and responsive portfolio website using React, showcasing my skills and projects. Implemented modern UI/UX principles for an engaging user experience.
- Demonstrated proficiency in front-end development and utilized React components to create an interactive and visually appealing personal portfolio. The website serves as a comprehensive representation of my professional capabilities and accomplishments.

NETWORK OF SOCIAL WORKING ORGANISATIONS

- A website which clubs together different social organisations working on social issues

EXTRACURRICULAR ACTIVITIES

Vice President, IT Tech Club

Spearheaded strategic planning and execution of club initiatives, fostering a dynamic environment for technology enthusiasts
